

THE CENTER FOR MARXIST EDUCATION PRESENTS

The Fidel Castro Tapes

Sunday, July 30 | 6:00 PM

The Fidel Castro Tapes features rarely — and never-before-seen — images to tell the life story of the leader of Cuba.

It chronicles how his drive and charisma catapulted him to power in Cuba and how he used these traits to maintain control of his country for nearly five decades and capture the attention of the world.

Instead of telling his story through interviews, the program relies solely on media reports, rare images and recordings to document Castro's turbulent life. In addition, the program features footage obtained from several Cuban archives.

By using an "in the moment" style of storytelling, *The Fidel Castro Tapes* gives viewers a sense of being present during the most significant moments of Castro's career — and gives remarkable insight into his personality.

English, 60 minutes.
